Summary

WordPress Designer with over 2 years of functional experience designing and managing business websites using WordPress creation tools. Skilled in both front-end with expertise in implementing custom themes, plugins, and ensuring site performance. Consistently delivers user-friendly, responsive, and secure websites that align with client expectations in agile environments.

Currently pursuing a Master's in Cybersecurity, further enhancing expertise in securing web applications and implementing best practices for privacy and data protection. Known for being detail-oriented, organized, and meticulous, able to balance creativity with precision to meet tight deadlines. A fast learner and enthusiastic team player committed to contributing to both technical and security-focused initiatives for company success..
